Ultra Modern 6 Bedroom Mansion in Pererenan, Mengwi, Bali

Located in the highly demanded beachside area of Pererenan, only a 4-minute drive to the beach and walking distance to many restaurants and cafes.

The big challenge of this luxury house was to make this massive amount of m2 to be experienced on a human scale and still feel it like a house. The land is deep, narrow, and with front views, very typical of the Canggu area where streams and rivers have shaped the roads and lands.

The building is closer to the views, facing the swimming pool and the stream at the end of the land contains the main spaces like the main lounge, a bedroom, and the master bedroom.
